Warsaw, Mo, Nov. 22.—An be Williams, the United States District Judge of Southern Kansas, arrived in town to night. A meeting of the citizens was immediately easied, and Judge Williams delivered a earli and cool statement of allims in the Territory. He has been for twenty-six years a presiding Judge on the berders of civilization. He is an old man with snow white looks and fine appearance, lon, orly of Pennsyl vania, and Attoracy General Elick was his law statest. we tide t. July Williams said that since Saturlay right he had been in the saddle. He can night he had been in the suddle. He came to warn Missent and of the approaching danger. Southern Kunsas had been delivered over to Abolition outrages, under Mertigenery and others. For that purpose only he had organized and held counts in all the counties of this district.

He left the Polk thomay Bangers, whom he commands, in realines to murch immediately upon re-cipt of orders from him so to do, and we may soon expect later reliable information from the scene of disturbance. A gentle man just in from thecela informs us that the citizens of that section were in a great rtate of excitement, apprehending that Monigomery would push on to that place for the purpose of teleng possession of the bank and the contents, which could be easily effected in the present unarrand condition of the inhabitants; the latest news of Mont gonery's movements being that a portion of his hand were at Ball's Mills, only 25 miles from these la, and it is feared that he will have on to the latter place.
